# U. S. AGREES TO TIMETABLE ON MISSILE FORCE

By JOHN M. HIGHTOWER AP Special Correspondent

WASHINGTON (AP) - The United States appears to be reconciled, although reluctantly. to a stretch-out in the timetable for concluding a draft agreement on formation of a seaborne nuclear missile force within the Atlantic Alliance.

The timetable had set up a year-end target date for the proposed agreement, which is being hammered out by working group of North Atlantic Treaty Organization representatives in

Belgian Foreign Minister Paul Henri Spaak said after a conference with Secretary of State Dean Rusk Monday that French opposition to the nuclear-force project had opened up a lot of questions that would take some time to answer. He dismissed talk of any final agreement in the immediate future.

No longer be annoyed or feel ill-at-ease because of loose, wobbly false teeth. FASTEETH, an improved alkaline (non-acid) powder, sprinkled on your plates holds them firmer so they feel more comfortable. Avoid embarrassment caused by loose plates. Get FASTEETH at any drug counter.

# "what a summer...

...biggest season we ever had for electric central air conditioning systems! And you'd be amazed at the number we're scheduled to install this winter!"

Well, as the old saying has it, live and learn! Last summer taught a lot of people that when the weather gets hot, air conditioning contractors get busy. That means waiting-and it's no fun. On the other hand, your man probably has some extra time right now. He'll be happy to use it planning a central air conditioning system for your home—and installing it, right on schedule. Why not give him a call?

**BUILD NEW SHOP** HARRISBURG (AP)-A rev olutionary new repair shop that moves huge railroad cars like

tin cans on an assembly line is

under construction at the Penn

sylvania Railroad yard in nearby Enola. The 100-by-120 foot prefabricated steel and fiberglass shop, parts of which already are in operation, will house three

freight car repair lines.

# NO DANGER TO

BALTIMORE (AP) - The Peach Bottom atomic power plant being built in York County, Pa., will produce 40,000 kilowatts of electricity from nuclear power, a spokesman for the Philadelphia Electric Co. says.

Novel McHugh said Monday the plant will be the world's most efficient all-nuclear power plant," and will be the first to use a high temperature helium gas-cooled type of reactor. The Philadelphia Electric Co.

will operate the plant, McHugh told the Baltimore Association of Commerce. The facility will be financed by 55 power companies in the High Temperature Reactor Development Associates. Inc.

Robert E. Ginn, development firm president, said the radiation hazard for nearby residents would be one-twentieth the radiation from a luminous wrist watch dial.

Take a no-obligation test drive in a 1965 Ford. Maybe you just couldn't believe the ad (reprinted above) which appeared in this paper a few weeks ago. After all, many consider Rolls-Royce to be one of the world's finest cars. But Ford does ride quieter. The world's leading acoustical experts (Bolt, Beranek and Newman, Inc.) made the tests. The U.S. Auto Club certified the results.

This year's Ford has the strongest body

ever . . . a revolutionary new frame that

"tunes out" vibrations . . . new ultrasoft

coil-spring suspensions—all contributing

to the new hushed ride. But the ride is

New swept-back instrument panel adds five inches extra knee room. Transmission tunnel is lower than in competing cars for extra foot room. 
Trunk has more usable space than ever-holds four 2-suiters standing upright.

■ New ultra-luxurious LTD series - un-

matched by any other car in Ford's class. ■ Silent-Flo ventilation (standard on 4-door hardtops) removes stale air, provides fresh air even with all windows closed. Exclusive new twin-edge key-works with either

■ Hot, but hushed, 289-cu. in. V-8 is standard equipment in XL and LTD models. ■ Smooth, thrifty all-new Big Six in other models - the most powerful standard Six offered by any car in Ford's class. 

V-8 options to 425 hp.

■ All Ford automatic transmissions have 3

speeds, not 2 as in many competing cars.

■ Fully synchronized manual transmissions

-vou can even shift down to first without clashing gears. If all this sounds like a lot for one car to offer . . . take a test drive. See why more people are buying Fords than ever before
